

05171100 – High Resolution Microwave Site Measurements

The presentation is three quarters of a gigabyte of data. It consists of several one to two minute videos of actual examples of high resolution data.

Please contact me at 972-248-7243 or jwolfson@x-dot.com and I will have you access some of the videos on Vimeo and explain them to you.

Don't worry, I am not going to high pressure you with some type of sales pitch.

James C. Wolfson

President
